

OLC 74-0249

20 February 1974

MEMORANDUM FOR:

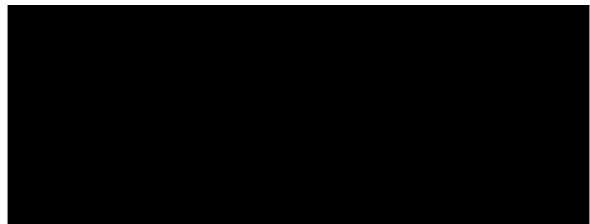

SUBJECT : H. R. 12206, "To amend title 5, United States Code, to provide that persons be apprised of records concerning them which are maintained by Government agencies."

1. Hearings have begun on the subject bill and there are indications that it will be favorably reported out of committee.

2. It is requested that you review the bill to determine if the Agency is affected. Note that section (b) does exempt those records classified under an Executive Order; however, section (c) requires an annual report to Congress on an agency-by-agency basis on the number of records exempted by Executive Order.

3. Based on your comments, we will consider if Agency action is necessary.
